ABI Resources & Services

DIRECTOR'S MESSAGE

“Working in the Oil & Gas industry for several years, we have personally witnessed various problems and difficulties that most clients face, especially without an in-house project team equipped with the technical know-how to support, manage and tackle challenges at construction yards. Approaching mainstream manpower

as a united team of experienced engineers, these occurrences have inspired us to join forces, put our minds together

“There is only one boss.
The customer.”

and create ABI Resources & Services - Your Partner and Solution Provider for Oil & Gas Project Construction Management. ABI Resources & Services is a Singapore based Consultancy Company, providing Project Management Services and Specialized Solutions for Oil & Gas on-shore and offshore projects. Our engineers have worked in Asia, Australia, Middle East, Africa, America and Europe serving a wide range of internationally reknown clientele.

We strategically plan and manage your projects to guarantee success. Our team consists of a group of highly trained individuals with proven track records. Our commitment is to provide unparalleled quality driven solutions and services to all our clients. We arrive at your project site fully prepared with precise job

descriptions, ensuring high productivity and commitment as we know that time means money for you. Our commitment to your success guarantees our continuous growth. This ideology makes us a unique company. Give us a call and let us be your partner!”

K.G Raama Nair
Director, ABI Resources & Services

Your partner & solution provider for Oil & Gas Projects

INTRODUCTION

ABI Resources & Services is an independent project management and solution provider for oil & gas, marine and energy related industries. ABI is an ISO 9000 Certified company that has been operating since 2000. It is managed by highly experienced directors and supported by a team of high caliber professionals. Our consultants have worked on numerous international onshore/offshore construction projects and they have a clear understanding about the needs of our global clientele. Our services are proven, reliable, cost effective and highly productive. We measure our success by our client's testimony. Our continuous strive to provide a high level service has enabled us to work with several reputed clients.

Why Choose Us?

WHY ABI?

Our Strengths

FOUNDED BY PROFESSIONALS

Our directors are time-served professionals with more than 30 years experience in the Oil & Gas industry. Mr Rama Nair is a Singapore citizen and has worked in senior positions for Oil & Gas projects in more than 26 countries including 7 years in Aberdeen, Scotland in the North Sea.

Our Philosophy

CLIENT SATISFACTION

To communicate with our clients and try to understand their every needs through a series of fine-tuned clarifications and questions to meet their specific requirements. We follow and evaluate our performances to the utmost satisfaction of our clients.

Our Approach

A UNIQUE APPROACH TO TACKLING ALL YOUR PROBLEMS

We work very closely with our clients in providing value added services. Our consultants are exposed to major construction yards, shipyards, fabricators, offshore environments and specialist vendors worldwide. We are well known among our clients and contractors for our unique approach in tackling problems and providing the best solutions.

Our Methods

BASED ON YEARS OF EXPERIENCE IN THE INDUSTRY

To provide the right solution and deliver on time by understanding our clients' needs. Backed by our experience and proven techniques, we always thrive to innovate and improve to meet maximum customer satisfaction

Our Teamwork

TEAM SPIRIT

We are committed to providing quality services with our vast experience in the oil & gas market. We do not deal with people we don't know or recruit anyone based on their CV writing skills. Every application is carefully reviewed and checked for authenticity prior to our in-house multiple interviewing processes and screening sessions that cater to our stringent selection criteria.

Our Employees

OUR PROFESSIONAL TEAM

Our highest priority is to maintain a close relationship and to operate a peer to peer cohesion with all our employees. Our human resources team is vital for our growth and it sets us apart as a unique company. We pay their wages on time and provide many incentives, training and welfare to bring out their very best and to remain with us in the long term.

Our Safety Approach

SAFETY VISION

To foster a workplace culture across business operations where safety is considered a core value, safe behaviour is encouraged and respected, and continual improvement is considered to be a part of normal business practice.

OUR GOAL OF COMMITMENT

To eliminate workplace injury and ill health, to provide work environments that do NOT compromise the safety of any individual and to ensure that all OH & S protocol are strictly observed throughout business operations.

We encourage appropriate consultation with clients on their health and safety policies and standards, and ensure that these are communicated and observed.

Our Quality Policy

QUALITY POLICY STATEMENT

Meeting and even exceeding our customers' expectation in terms of quality, delivery and cost by continuously improving our procedures, processes and services offered to clients through total employee involvement.

We maintain a program of education and training to enhance the skill and quality levels of all consultants.

Our Price

VALUE FOR YOUR MONEY

Without compromising quality, we always work well within our client's budget by providing competitive quotations that will place our customers in a win-win situation. This has put ABI on the map as a highly cost-effective company and is the reason why our clients continue to choose us.

INTERNATIONAL PRESENCE

ABI has established a global network of professionals all across the world in every continent. No land is unfamiliar to us...

International Clientele

Our staff have been hand picked to serve some of the biggest names in the Oil & Gas industry, a true testament to our capabilities as a team of dedicated professionals.

What we have worked on in the past

PROJECT PHOTOS

Seminars and Workshops

TRAINING

Our training sessions are conducted by our time served, qualified and experienced pool of trainers who have invaluable experience in the field. We have witnessed the pitfalls and problems of having an unskilled, under-trained workforce. At ABI, we ensure our people know every trick of the trade.
